

**COLLEGE OF ENGINEERING PUNE
(COEP)
MAHARASHTRA – 411 005**

Call for Papers and Participation in

TEQIP-III Sponsored

**Two Days ONLINE International
Conference on**

**Advances in Construction
Technology and Management**

(ACTM-2021)

11th and 12th March, 2021

Organised by

**Department of Civil Engineering
College of Engineering Pune (COEP)
Maharashtra – 411 005, India.**

Novelty of the conference

Along with other sessions, a special session named as “Thought-provoking session” will be dedicated to the papers which focus on the novel research ideas that have the potential to solve Civil Engineering Field/Practical problems. This special session will be attended by eminent International and National professionals, practitioners, academicians, researchers, and members of professional organizations.

The papers for this special session will be critically reviewed by the expert committee. Through this platform, authors will get the advice from renowned individuals, might get possible funding opportunities and seed grants for further research. Authors will also be awarded and rewarded by the organizing committee.

About COEP

College of Engineering Pune (COEP), one of the oldest engineering colleges in India, was established in the year 1854. It is a premier engineering institution in the country and is consistently ranked very high by various independent surveys on Technical Education in India. It is the Lead Centre under the Technical Education Quality Improvement Programme (TEQIP) assisted by the World Bank. The institute has more than 3500 students on roll pursuing undergraduate, postgraduate and doctoral education in various disciplines.

About the department

The Department of Civil Engineering established in 1854 has the distinction of being the oldest

department in the institute. It has set up a great tradition of producing distinguished engineers such as Bharat Ratna late **Sir. M. Visvesvarayya** who through his countless works is synonymous with Civil Engineering. Even after completing its sesquicentennial anniversary, the department has kept updating to well-equipped laboratories and research. The faculty believes in high-quality teaching and is very active in projects, conferences and research publications. The department offers consultancy in various fields of Civil Engineering to reputed government and private sectors.

Department offers Post Graduate and Doctoral Programs in the following areas: Construction Management, Environmental and Water Recourses Engineering, Geotechnical Engineering, Structural Engineering and Town & Country Planning.

The department has recently started Post Graduate Diploma in Rail and Metro Technology.

Aim of the conference

In order to cope with the ever-growing needs of infrastructure development, the construction industry should make constant and sustainable innovations with respect to construction technology and management.

The present International conference will provide a platform to researchers, practitioners and academicians from leading International and National institutions working in the field of construction technology to showcase their novel ideas. Invited International and National eminent speakers will present the outcome of their

research carried out in recent times addressing the advances in construction technology and management.

Also, a platform for Interaction between R&D organizations and Civil Engineering fraternity will be arranged to discuss the present and future needs of the construction industry.

Themes

Advances in following areas

1. Concrete technology
2. Construction technology and management
3. Transportation and traffic engineering
4. Geotechnical engineering
5. Structural engineering
6. Environmental and water resources engineering
7. Construction materials
8. Miscellaneous

The best paper/s in each session would be decided by the experts and will be awarded.

Call for papers

Prospective authors are encouraged to contribute and help shape the conference through submissions of their research abstracts and papers. Also, high quality research contributions describing original and unpublished results of conceptual, constructive, empirical, experimental, or theoretical work in all areas of construction technology and management are cordially invited for online presentation at the conference.

Prospective authors are hereby invited to submit abstracts not more than 300 words on the

conference website 'www.actm2021.com' by creating an author profile (or may submit to conference email id actm2021@coep.ac.in). After reviewing the abstracts by the technical committee, the acceptance will be notified through e-mail. Thereafter, authors need to submit a full-length paper in MS word document (manuscript template will be available on the conference website). The manuscripts will be peer-reviewed and authors will be informed with the review comments/suggestions for the subsequent submissions.

Publication

ACTM-2021 conference proceedings will be published with ASCE (Construction Institute) and one more leading publication house after the peer review process. **(Note: Publication charges will not be charged from our participants)**

Important dates

Submission deadline for abstracts (Extended till 10th Jan 2021)	Dec 20, 2020
Submission deadline for full length paper	Feb 20, 2021
Final submission/s after review	Mar 01, 2021
Submission deadline for camera ready paper	Mar 06, 2021
